

Apiro® DC motor kit for rack and pinion gearboxes

RL-A51.0144

Apiro® DC motor kit for rack and pinion gearboxes

- Suitable for particularly small installation spaces
- Ready-to-install solution replaces complex design
- Numerous applications already successfully solved
- No lubricants required thanks to dry-running gearbox

Product description

Discover the Apiro® DC Motor Kit for rack and pinion gearboxes, a compact solution designed for tight spaces. This ready-to-install kit simplifies your design, eliminating the need for complex setups. With a dry-running gearbox, there's no need for lubricants, making maintenance a breeze. Ideal for various applications, the Apiro® kit ensures reliable performance while saving you time and effort. Upgrade your projects with this efficient and versatile motor kit today!
