

drygear® adapter for Apiro connection to drylin
SLW, SHT
RL-A54.0113

drygear® adapter for Apiro connection to drylin
SLW, SHT

- Adapter plate available for many drylin linear modules
- Includes coupling for connection to Apiro® worm gear
- Several linear modules can be synchronised

Product description

Introducing the drygear adapter for Apiro connection to drylin SLW and SHT. This innovative adapter enables seamless integration between Apiro worm gears and drylin linear axes, allowing for the synchronization of multiple axes with a single motor. Lightweight and cost-effective, it's perfect for applications like format adjustments in the packaging industry. With compatibility for various drylin modules, this adapter is your go-to solution for flexible and efficient motion control.

General properties

Weight	35.9832 g
drylin axis	SLW-1660
Shipping weight (kg or kg/m)	0.0359832

Dimensions

L1	55 mm
Ø d2	8 mm
B1	13 mm
H1	62 mm
L2	40 mm
L3	20 mm
S	8 mm
Drilling pattern	40x20
