

iglidur AD500, bar stock plate strips

SFPAD500-06-160

iglidur AD500, bar stock plate strips

- High-temperature material for the food area
- FDA compliant
- Visually detectable

Product description

The iglidur AD500 bar stock plate strips are made from a high-temperature, FDA-compliant material suitable for food areas. They are visually detectable and maintenance-free, reducing costs for lubricants and upkeep while ensuring better performance. Please note, these strips are manufactured with excess dimensions for ease of use.
