

iglidur® C500, plate strips

SFPC500-15-160

iglidur® C500, plate strips

- High media resistance
- Resistant to water vapour
- Good wear resistance at room temperature
- Good wear resistance at medium temperatures
- Excellent wear resistance at high temperatures
- Suitable for high speeds
- Low moisture absorption

Product description

Introducing the iglidur® C500 plate strips, designed for exceptional performance in demanding environments. With high media resistance and low moisture absorption, these strips excel in various conditions. They offer excellent wear resistance at room temperature and even better at medium and high temperatures, making them suitable for high-speed applications. Choose iglidur® C500 for reliable, long-lasting performance in your projects.
