

iglidur® J350, plate strips

SFP J350-15-160

iglidur® J350, plate strips

- Good wear resistance at room temperature
- Good wear resistance at medium temperatures
- Good wear resistance at high temperatures
- Excellent coefficient of friction
- Low moisture absorption
- Good wear resistance under water
- High media resistance
- Resistant to high loads (>60N/mm²)

Product description

Discover the iglidur® J350 plate strips, designed for exceptional wear resistance at various temperatures, ensuring durability and reliability. With a low moisture absorption rate and outstanding performance under water, these strips excel in high-load applications. Their excellent coefficient of friction and high media resistance make them ideal for demanding environments. Upgrade your projects with the superior quality of iglidur® J350 plate strips for long-lasting performance.
