

iglidur® JB, plate strips

SFPJB-06-160

iglidur® JB, plate strips

- Wear-resistant
- Low coefficient of friction
- Low humidity absorption
- Good media-resistance

Product description

Discover the iglidur® JB plate strips, designed for durability and performance. These wear-resistant strips feature a low coefficient of friction, ensuring smooth operation in various applications. With low humidity absorption and excellent media resistance, they are ideal for challenging environments. Trust iglidur® JB for reliable, long-lasting solutions that enhance efficiency in your projects.
