

iglidur® AX500, bar stock round bar

SFRAX500-1000

iglidur® AX500, bar stock round bar

- Low wear
- Low coefficient of friction
- Low humidity absorption
- Good media resistance

Product description

Discover the iglidur® AX500 round bar, designed for creating maintenance-free sliding elements and bearings. This lubrication-free bar stock features low wear and low friction, ensuring optimal performance in various applications, including medical technology and special machine construction. With excellent media resistance and low humidity absorption, it's perfect for custom dimensions and urgent prototypes. Choose iglidur® AX500 for reliable, high-quality solutions tailored to your needs.
