

drylin® flanged lead screw nuts for linear modules
SHT-2018 right-hand thread

SHT-2018-TRM-18X4-RH

drylin® flanged lead screw nuts for linear modules SHT-2018 right-hand thread

- Material: iglide® J
- Thread type: Trapezoidal threads
- Design: Special part
- Cylindrical lead screw nut

Product description

Discover the drylin flanged lead screw nuts designed for linear modules SHT-2018 with a right-hand thread. Crafted from iglide J material, these cylindrical nuts feature trapezoidal threads for smooth operation. Their special design ensures durability and reliability in your applications. Upgrade your linear motion systems with this essential component that combines quality and performance seamlessly.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	36500 g
--------	---------

Dimensions

Thread size	TR18X4
