B	14 mm
d3 thread	M04

Product description

Introducing the igubal® fixing collars, expertly designed for the food industry. Made from high-quality igumid FC plastic, these split collars ensure easy installation and are lightweight, making them a practical choice. They feature a stainless-steel screw and nut for added durability. Ideal for securing shafts, they work seamlessly with igubal spherical insert bearings and other igubal products. Available in various sizes, these collars offer excellent resistance to corrosion and wear, ensuring reliability in your applications.
