H	1.125 in

Product description

Introducing the drylin R hardened steel shaft, supported SWUI in imperial sizing. Crafted from durable CF-53 steel, this shaft ensures reliable performance for your applications. Its robust design provides stability and strength, making it an essential component for various projects. Experience the quality and precision of the drylin R series, perfect for those seeking dependable support in their engineering needs.

Manufacturing and installation tolerances

H-tolerance	±0.002"
-------------	---------

General properties

Material	CF-53 steel (1.1213)
Drilling pattern	Standard

Dimensions

B	1.5 in
V	0.1875 in
M	0.25 in
E	1 in
Pitch T	4 in
max. length	15 ft
V	0.1875 in
