drylin lead screw nuts with locating spigot for
linear modules SWZ-W-1660

- Material: iglide® J350
- Thread type: Trapezoidal threads
- Design: Special part
- Cylindrical lead screw nut

Product description

Introducing the drylin® lead screw nuts with locating spigot for linear modules SWZ-W-1660. Crafted from durable iglide® J350 material, these right-hand thread nuts feature a unique cylindrical design with trapezoidal threads, ensuring smooth operation and precise positioning. Ideal for enhancing your linear module systems, this special part combines reliability and efficiency for your projects. Upgrade your setup with this essential component today.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	10.15 g
