Product description

Introducing the drylin R linear slide bearing TJUI-03 from the trusted brand drylin. This innovative bearing features a split anodised aluminium adapter with a spherical section that automatically compensates for misalignments, ensuring smooth performance. The O-rings provide effective cushioning, enhancing durability. Crafted with iglidur J material, this bearing is designed for reliability and efficiency in various applications. Upgrade your setup with this exceptional solution for linear motion.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

Manufacturing and installation tolerances

d1 tolerance	+0.036 +0.123 mm, F9
d2 tolerance	h7
B tolerance	h10
s tolerance	H10
dn tolerance	h10
ds tolerance	h10
o tolerance	+0.008 inch

General properties

Sliding element material	iglidur_j
