Product description

Introducing the drylin R liner TUIO-01, imperial, designed for high-performance applications. Made from iglidur X material, this enclosed, long design is perfect for extreme temperatures. Its robust construction ensures resistance to both temperature and chemicals, making it ideal for use on stainless steel and chromed shafts. Upgrade your projects with the reliability and durability of the drylin R liner TUIO-01.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

Physical properties

Max. long-term application temperature	250 °C
Lower application temperature	-100 °C
