Product description

Introducing the drylin W pillow block WJ200QMT-01-AL, a reliable solution for your applications. Made from durable aluminum, it features a sliding element crafted from iglide J200 for enhanced performance. This tandem version ensures optimal functionality, making it an excellent choice for various setups. Upgrade your equipment with this robust and efficient pillow block that combines quality materials with innovative design.

Mechanical properties

|                           |        |
|---------------------------|--------|
| Static load capacity Coy  | 2000 N |
| Static load capacity Coz+ | 2000 N |
| Static load capacity Coz- | 420 N  |

Dimensions

|                  |        |
|------------------|--------|
| Floating bearing | none   |
| A3               | 6.5 mm |
| B                | 26 mm  |
| C1               | 58 mm  |
| C3               | 45 mm  |
| H                | 20 mm  |

General properties

|                          |               |
|--------------------------|---------------|
| size                     | 01-10         |
| Design                   | square        |
| Sliding element material | iglidur® J200 |
| Anti-Reflex              | No            |
