Product description

Introducing the drylin W carriage for curved rail WWB, designed for both convex and concave applications. Crafted from durable aluminium, this round carriage features sliding elements made from iglidur I3 material, ensuring smooth and reliable movement. Perfect for a variety of projects, its innovative design allows for seamless integration into your systems. Experience the reliability and versatility of the drylin W carriage today.

Dimensions

A	80 mm
C	102 mm
A2	50 mm
C2	50 mm
Thread K2	M6
H2	28 mm
A3	20 mm
Vz	9 mm

General properties

size	10-40
Design	round
Sliding element material	igidur® I3
Bending direction	Convex; Concave
Bending radius	>R250

Certificates and standards
