Product description

Introducing the drylin W carriage, designed for curved rail applications. This round carriage features a durable aluminium construction and is equipped with a manual clamp for secure operation. The sliding element is made from high-performance iglidur I3 material, ensuring smooth movement in curved bending directions. Ideal for enhancing your projects with reliable and efficient functionality, the drylin W carriage is the perfect choice for your curved rail needs.

Manufacturing and installation tolerances

H2-Tolerance	±0,25 mm
