Product Images

Short Description

Key Benefits

- UL approved thermostat controls the temperature and provides overheat protection

- Freeze protected up to -30°F (-34° C), maintained temperature is 68° - 77°F (20° - 25°C)
- Quickly installed on the OptiWash™, using hook and loop fasteners and drawstrings
- Insulated jacket helps maintain tepid water in warm climates
- Eyewash easily activated by pulling on the orange activation arm down to the open position

Description

This heated, insulated jacket is the perfect accessory to maintain ANSI compliant tepid water in operating temperatures up to -30°F (-34° C). Quickly fits over Hughes model 10GFEW OptiWash™ 10-gallon eye wash station. Trace tape heated design with 120V, 60/50Hz electrical requirement, includes 10 ft power cord with UL listed, CSA certified GFCI plug. The jacket can be used in cold or warm climates, it's simple to put on or take off the OptiWash™ eye wash station. Eyewash sold separately.
