

# 2 Gallon Polyethylene Safety Container for Corrosives/Acids, Wide-Mouth, White - 12762

## Product Images

---

## Short Description

---

- Resists acids and caustics
- Allows quick pouring and easy filling
- Spring close cap

## Description

---

Translucent high-density polyethylene resists acids and caustics. The 2- and 5-gallon (7.5- and 19-L) sizes have fixed position on handle, which allows lid to stay open for easy filling. Spring-close cap provides a tight seal. Flame arrester-free spout allows quick pouring of non-flammable corrosives. Oval containers have trigger handle for one-handed pouring and make the most of storage capacity.
