

# 1 Quart Plastic Dispensing Can, Brass Dispenser Valves, Red - 14010

## Product Images

## Short Description

- High quality 1 qt (1 L) plastic dispensing can targets small areas to minimize spills and prevent excess liquid
- Safe & easy one-handed discharge of liquids directly onto a work surface
- Can dimensions of 10.5 in H x 4 in OD (26.7 cm H x 10.2 cm OD)
- Available in red
- FM Approved

## Description

---

Use this reliable 1 qt (1 L) plastic dispensing can (model 14010) made of polyethylene to simply apply small amounts of combustible solvent onto your workspace. A simple squeeze targets liquids directly onto parts, cleaning cloths, or small vessels such as laboratory beakers.

This dispensing can has an exterior height of 10.5 in (26.7 cm) and an outer diameter of 4 in (10.2 cm). Model 14010 is red, weighs 0.6 lb (0.3 kg), and is FM Approved.

## Plastic Dispensing Cans Make Cleaning Parts Easy

Many industries require safe dispensing of combustible liquids for cleaning. Some of these include manufacturing, maintenance, repair, construction and lab sites within the steel, automotive, airline, agriculture, food, paper, and chemical industries.

The bottle features a stainless steel wire that allows the stem to be shaped for hard to reach areas. The textured dispenser can is easy to grip for one-handed application. The leak-proof brass dispenser valve self-closes when released to minimize spills, smells, and control excess liquid.

This product is a personal favorite of Adam Savage, formerly of Mythbusters fame. He recommended the Justrite dispensing can on his YouTube channel, [Adam Savage's Tested](#).

Made from high quality polyethylene plastic, the Justrite safety dispensing can is suitable to store a variety of solvents and should hold up for many years.

For solvent compatibility, reference page 19 of the [Justrite Red Book](#) for polyethylene can material.
