Description

The Original Smoker's Ceasefire® Outdoor Ashtray in Forest Green (model 26800G) is a fantastic way of keeping your entrances clear of cigarette litter. With both style and function, it's a perfect accompaniment to your establishment, collecting cigarette butts safely and reducing the risk of fire.

The ashtray measures 38.5 in (978 mm) in height and 16.5 in (419 mm) in outer diameter. It features an internal drip lid preventing tar condensation from escaping the galvanized steel pail to keep the exterior clean, which is especially useful in environments with high humidity.

Made of a flame-retardant polyethylene so there's no risk of rusting, denting or cracking, the ashtray features a galvanized steel bucket that can hold up to 4 gal (15 l) of cigarette litter to keep your areas clear. Its large head is small enough to discourage other litter thrown in and prevent rain from collecting in the bucket, while also offering a large radius for smokers to throw away their cigarettes. To reduce fire risk, it dissipates heat from the cigarette butts. Its long neck cavity helps minimize clogging.

Maintenance is simple for model 26800G. To open, unscrew the back knob of the ashtray to lift the lid and empty the bucket into the trash. Optional accessories include handy disposable bucket liners made of aluminum/poly (model 26827), which can be easily twist-tied and thrown away once full.

For extra security with your outdoor ashtray, an Anchoring Cable Kit with Padlock (model 268505) is also available. Simply attach the 36 in (914 mm) wire rope around a railing or fence, then attach the cable end and padlock to a tie-down notch at the base.

Clean grounds can help maintain a great image for your business, and the Original Smoker's Ceasefire Outdoor Ashtray is perfect for keeping it that way.
