

25 Packs of 10 Disposable Bucket Liner for Outdoor Ashtray, Smoker's Ceasefire® Cigarette Butt Receptacle - 26830

Product Images

Short Description

- Made of aluminum/poly
- Fits Original, Elite, and Personal Smoker's Ceasefire® outdoor ashtrays

- Can be twist-tied
- FM approved when used with Ceasefire cigarette receptacles

Description

Handy disposable bucket liners made of aluminum/poly (model 26830) are perfect for making maintenance easier with your outdoor ashtray. When the liner is full, these can be easily twist-tied and thrown away.

This option comes with 25 packs of ten with twist ties and can be used with the Justrite Personal, Original, and Elite Smoker's Ceasefire® models. The liners will fit any bucket 11.4 in (289 mm) wide and 10 in (254 mm) high maximum size. This item is FM approved when used with the Smoker's Ceasefire models as a cigarette receptacle system.

If using sand or a brick to give your ashtray extra weight, please do not place these items in the liner. Instead, place any weights beneath the liner or under the bucket to ensure the amount of butts collected is not reduced.
