Short Description

- Corner pieces can be combined with straight pieces to create a complete containment solution.
- Contains spills and leaks around unique equipment situations.
- Semi- permanent, can easily be installed and removed.
- Durable bright yellow color for visibility.
- 1.5" and 2" are ideal for small to medium capacity containment needs.
- Flexible foam that bounces back allows for foot traffic and light wheeled traffic.
- Helps to comply with EPA for containment and spill prevention (SPCC) regulations.

Description

Make-A-Berm™ allows for spill containment to be installed around difficult to move equipment, spill-prone areas, or areas where a standard-shaped berm won't work. Corner pieces are key to providing a full spill containment. The corner pieces are easily attached to the berm pieces with the use of vinyl cement. Non-absorbent modified Yellow PVC coated fabric provides a highly resistant barrier to contain oils, gasoline, acids and other liquids.
