

Make-A-Berm, Heavy Duty Vented Corner, 1.5 inch High, 2 per Box - #28494

Product Images

Short Description

- Heavy Duty berms use heavier duty PVC coated material along with aluminum strips to withstand vehicle traffic.
- Vented corners allow for air to release when berm is rolled on so that the berm is not damaged.
- Corner pieces can be combined with straight pieces to create a complete containment solution.
- Contains spills and leaks around unique equipment situations.
- Hi-visible orange color for use in high traffic areas.
- 1.5" and 2" are ideal for small to medium capacity containment needs.
- Semi- permanent, can easily be installed and removed.
- Helps to comply with EPA for containment and spill prevention (SPCC) regulations.

Description

Make-A-Berm™ Heavy Duty allows for spill containment to be installed around difficult to move equipment,

spill-prone areas, or areas where a standard-shaped berm won't work. Heavy Duty vented Corner pieces are key to providing a full spill containment. These allow air to flow thru as forklift traffic and hand truck equipment are being used. Non-absorbent Orange modified PVC coated fabric provides a highly resistant barrier to contain oils, gasoline, acids and other liquids.

Specifications

Model No	28494
UPC	697841270411
Brand	Justrite
Color	Orange
Material Specifications	PVC Coated Fabric
EPA Compliance	Helps comply with EPA for containment and spill prevention (SPCC)
SPCC Compliance	40 CFR 112.7 (c)
Dimensions, Exterior	1.5" H x 5.5" W x 11" L
Dimensions, Exterior	38.1mm H x 139.7mm W x 279.4mm L
Includes	2 ea. 1.5" H vented corners, Aluminum strips with screws
Berm Shape	Halfmoon
Foam Material	Open Cell Urethane
Temperature range of the material	-40degreesF- 180 degrees F
Vehicle Traffic	Vehicle Traffic, Fork lifts, Wheeled carts, Hand carts

Prop 65
