Engineered for Fast Action and Compact Storage

Deploy

Unfolds in seconds for immediate spill response or temporary containment

Clean

Made of durable, low-maintenance PVC for repeated use and simple cleanup

Store

Folds flat and secures with an attached strap for easy storage in tight spaces

Short Description

- Folds flat for compact storage and fast setup wherever a temporary work zone is needed
- Durable PVC construction resists oils, fuels, and common shop chemicals
- Reinforced wire-frame walls maintain shape and stability during use
- Heat-welded seams add strength and support long-term, leak-resistant performance
- Easy to clean and reuse for routine maintenance and shop activities
- Measures 36-in W x 36-in L x 4-in H; 20 gallon capacity

Description

Justrite Folding Utility Trays provide a convenient, portable way to protect work surfaces and contain everyday drips, messes, and fluids during routine maintenance and handling tasks. Ideal for benchtop work, small equipment service, and mobile field operations, these trays create an instant controlled workspace wherever it's needed.

Constructed from rugged PVC that stands up to oils, fuels, coolants, and common shop chemicals, each tray unfolds in seconds and holds its shape thanks to wire-reinforced walls. Heat-welded seams deliver long-lasting durability and dependable, leak-resistant performance.

When work is finished, the tray wipes clean, folds flat and fastens securely with a hook-and-loop strap. It is compact and lightweight, making it easy to store in vehicles, toolboxes, maintenance carts, or spill kits without taking up space.

Available in multiple sizes plus an elevated grate version, these collapsible utility trays support cleaner, more organized, and more efficient operations across maintenance, field service, utilities, transportation, manufacturing, environmental services, and public works.

20-Gallon, 36" x 36" x 4" Foldable Utility Tray (Model 28588) Offers a Large, Portable Work Area for Bigger Maintenance Tasks

With a 20-gallon capacity, the largest portable utility tray provides ample containment for larger equipment and higher-volume spills. It's ideal for utility technicians and field service personnel maintaining small pumps, valves, and generators. Its sturdy construction and generous surface area also make it well suited for containing fluids from multiple larger containers, delivering durable spill control in demanding environments.

Specifications

Model No	28588
Brand	Justrite
Color	Yellow
Material Specifications	PVC
EPA Compliance	Helps comply with EPA for containment and spill prevention (SPCC)
Capacity	20 gallon
Liter Capacity	75.7
Dimensions, Exterior	36 in x 36 in x 4 in
Dimensions, Exterior	914.4mm x 914.4mm x 101.6mm
Dimensions, Folded	39 in L x 5 in W x .5 in H
Net Weight, lbs	4
