

15 Gallon, 2 Shelves, 1 Door, Self-Close, US Navy Hazardous Materials Cabinet, Blue - 8615287

Product Images

Short Description

- Suitable for onboard installations of U.S. Navy ships and submarines
- Exterior Dimensions: 46.5" H x 23.25" W x 18" D; interior Dimensions: 39.5" H x 20" W x 14.75" D
- Qualified to U.S. Navy Shock B and Vibration Testing MIL-DTL-901 and MIL-STD-167-1A
- Qualified to Submarine Atmosphere Control Manual, S9510-AB-ATM-010/(U)
- Qualified in accordance with Federal Specification AA-C-101A Type I and II, Class I and II
- FM-approved

Description

Ensure superior safety and compliance aboard U.S. Navy vessels with the 15 Gallon Hazardous Material Cabinet, skillfully engineered to meet stringent naval standards. This robust and secure storage solution is perfectly suited for the safe containment of corrosive or hazardous liquids on both ships and submarines, emphasizing a steadfast dedication to safety and regulatory compliance.

The 15-gallon royal blue U.S. Navy Hazmat Cabinet model 8615287 measures 39.5 inches in height, 23.25 inches in width, and 18 inches in depth. Constructed from 18-gauge steel with double-wall construction, this cabinet provides 1.5-inch air space for insulation and is equipped with a self-closing door featuring a 3-point self-latching system to ensure a secure seal. The innovative patented SpillSlope® shelves are designed to direct spills towards a leakproof sump, effectively containing any accidental leaks.

For enhanced safety during naval operations, U.S. Navy cabinets utilize specially designed feet which can be welded securely to the ship's deck or hull, ensuring stability and safety even under rough conditions. Each cabinet comes with two fully adjustable galvanized shelves capable of supporting up to 350 pounds each, secured with brackets to withstand the impacts of naval activities. For greater protection from corrosive chemicals, hazmat cabinets also come with poly liners for shelves and sump.

Safe, Compliant Storage Solution Meets NAVSEA Ship Requirements

This cabinet is qualified to U.S. Navy Shock B and Vibration Testing MIL-DTL-901 and MIL-STD-167-1A standards. Additionally, it meets the requirements of the Submarine Atmosphere Control Manual, S9510-AB-ATM-010/(U), confirming its suitability for submarine use. Along with FM approval, it is also in compliance with Federal Specification AA-C-101A Type I and II, Class I and II, which further assures its quality and reliability.

Moreover, model 8615287 is approved for installation on a wide array of U.S. Navy Ships and Submarines, ensuring broad applicability across various classes of naval vessels, from aircraft carriers like the CVN 68/78 to destroyers and submarines including the SSBN/SSGN 726 and SSN 688 classes. The cabinet is also FM-Approved.

For the 12-gallon version of the U.S. Navy Hazmat Cabinet, see model 8612287.

Specifications

Model No	8615287
UPC	697841169005
Brand	Justrite
Color	Blue
Pallet Quantity	2
Material Specifications	18-Gauge Steel
FM Approval	Yes
Complies with International Fire Code	Yes
Complies with NFPA Code 30	Yes
Complies with NFPA 1 Fire-Code	Yes
Complies with NFPA 400	Yes
Capacity	15 gallon
Liter Capacity	57
Number of Doors	1
Door Type	Self-close
Number of Shelves	1
Dimensions, Exterior	44" H x 23.25" W x 18" D
Dimensions, Exterior	1118mm H x 591mm W x 457mm D
Dimensions, Interior	39.6" H x 20" W x 14.6" D
Dimensions, Interior	1006mm H x 508mm W x 370mm D
Height (Inches)	44
Width (Inches)	23.25
Depth	18
Net Weight, lbs	135.0
Net Weight, kg	61.2
