

DynaLoc Type 3 IME/DOT Day Box Explosive Storage Magazine, White - EL701

Product Images

Short Description

- For the safe, short-term transport of explosive materials
- For use when explosives and detonators are carried on the public highway in the same vehicle
- Meets ATF 27CFR, Part 555.208 and IME SLP-22
- Durable, hand-welded 12-gauge steel construction
- Non-sparking 1/2" plywood interior with 5/8" drywall interior for additional fire resistance

Description

The Justrite DynaLoc Type 3 IME/DOT Day Box Explosive Storage Magazine, White – model EL701, is engineered to address the critical needs of safely transporting explosives and detonators on public highways in the same vehicle. The EL521 offers a blend of robust construction and user-centric features designed to comply with ATF 27 CFR, Part 555 and SLP-22.

Constructed from 12 gauge steel and hand-welded for structural integrity, it offers protection against fire, weather, and unauthorized access. The laminate interior is lined with 1/2" non-sparking plywood and 5/8" of

drywall to reduce the risk of accidental ignition, supporting a safer storage environment. The IME/DOT box features welded side handles for added durability and a top-opening lid for efficient loading and unloading. Hinges and hasps are welded to the single locking door and cannot be removed when the doors are closed and locked.

The exterior and interior surfaces are protected with a high-performance coating system, comprising a modified phenolic alkyd resin base coat and an acrylic alkyd enamel topcoat. This finish ensures chemical resistance inside and offers protection against abrasion, corrosion, and UV damage externally.

Built for the Job Site

Justrite day boxes are lightweight and portable, yet robust enough to withstand daily transport from overnight storage areas to work sites or training facilities. Resistant to fire, weather, and theft, these units ensure explosives are stored under the safest conditions possible.

Applications

DynaLoc Type 3 IME/DOT Day Boxes are the ideal solution for a wide range of applications, including:

- Military and law enforcement explosive and ammunition transport
- K-9 training unit material transport
- Municipal explosive and ammunition logistics
- Contractor explosive transport

The ATF specifies a commercial grade, case-hardened padlock with a minimum of 5 tumblers padlock for all storage magazines. Get our [96010125 ATF-compliant padlock](#).

Specifications

Model No	EL701
UPC	850066616024
Brand	Justrite
Color	White
Pallet Quantity	6
ATF Compliance	ATF 27CFR, Part 555
Number of Doors	1
Dimensions, Exterior	18.5"W x 13.44"D x 8.13"H
Dimensions, Interior	11"W x 9"D x 5"H
Height (Inches)	8.13
Width (Inches)	18.5
Depth	13.44
Net Weight, lbs	42
