

OSHA Danger Safety Sign: Propane, 10" x 14" - MCHL206VA

Product Images

Short Description

- Alerts employees and visitors to propane hazards in storage areas, refill stations, equipment rooms, and other locations where propane is present
- Large, bold “PROPANE” label with OSHA-compliant “DANGER” header for immediate hazard recognition
- Durable aluminum construction resists rust, corrosion, and harsh weather for reliable indoor or outdoor use
- Withstands splashes, washdowns, and extreme temperatures from -40° to 250°F, maintaining visibility in tough environments
- Rounded corners and pre-drilled 3/16" mounting holes for quick, safe, and secure installation wherever propane hazards exist

Description

The OSHA Danger Safety Sign: Propane (MCHL206VA) is a crucial addition to any facility where propane is present. With its bold, easy-to-read “PROPANE” label and OSHA-standard “DANGER” header, this sign provides clear warning of hazardous conditions that could result in serious injury or death. Made from high-strength aluminum, it resists rust, corrosion, and damage from chemicals or moisture, ensuring long-lasting performance indoors or outdoors. The sign’s wide service temperature range and robust construction make it suitable for environments ranging from industrial kitchens to outdoor fueling stations. Rounded corners and pre-drilled mounting holes make installation fast and secure, so you can easily place it wherever propane is stored, handled, or used-helping you protect your team and comply with safety regulations.
