

OSHA Danger Safety Sign: Flammable, 10" x 14" - MCHL231VA

Product Images

Short Description

- Clearly warns employees and visitors of the presence of flammable materials, helping prevent fires and accidents
- Features the OSHA-standard “DANGER” header for immediate recognition of serious hazards that could cause death or serious injury
- Durable aluminum construction stands up to tough environments, resisting corrosion, fading, and damage from chemicals or moisture
- Bold, easy-to-read design in a standard 10” x 14” size ensures high visibility in key areas
- Lightweight (0.53 lbs) with 3/16” mounting holes for quick and easy installation wherever flammable hazards may exist
- Supports OSHA compliance and reinforces your facility’s commitment to workplace safety

Description

The OSHA Danger Safety Sign: Flammable (MCHL231VA) is an essential addition to any workplace where flammable materials are present. Designed to meet OSHA standards, this sign features the instantly recognizable “DANGER” header, alerting everyone to the serious risks associated with fire hazards. Constructed from durable aluminum, it resists corrosion, chemicals, and weather, making it suitable for both indoor and outdoor use. The bold red and black lettering on a white background ensures the warning is highly visible, even from a distance. Measuring 10” x 14” and weighing just 0.53 lbs, this sign is easy to mount in warehouses, workshops, storage rooms, or any area where flammable substances are handled or stored. By posting this sign, you help protect your team, comply with safety regulations, and promote a culture of awareness and caution in your facility.
