
**OSHA Danger Drum Contains Hazardous
Waste Label, 6" x 6" Adhesive, 25 Pack -
MHZW105EVP**

Product Images

Short Description

- Clearly alerts workers and visitors that drums contain hazardous waste, reducing the risk of improper handling or accidental exposure in warehouses, storage areas, and waste collection points
- Ideal for use on drums and containers exposed to outdoor or harsh industrial environments
- Bold OSHA “DANGER” header ensures immediate visibility and compliance with safety regulations
- Glossy surface wipes clean easily and allows for additional information to be added with pen or marker
- Permanent acrylic adhesive backing ensures secure attachment to metal, plastic, or fiber drums
- Convenient 6” x 6” size fits most drum surfaces, and sold in a 25-pack for efficient labeling of multiple containers

Description

The OSHA Danger Drum Contains Hazardous Waste Label (MHZW105EVP) is an essential safety solution for facilities that handle, store, or transport hazardous waste. Designed with a bold OSHA “DANGER” header and all-caps text, this label immediately communicates the presence of dangerous materials, helping prevent accidental exposure and ensuring compliance with regulatory standards. Constructed from durable Adhesive-Poly Sheet, these labels are moisture resistant and suitable for both indoor and limited outdoor use, making them perfect for labeling drums and containers in warehouses, waste collection areas, and industrial sites. The glossy surface can be wiped clean easily, and the non-coated area allows you to add custom notes or dates with a pen or marker. Each 6” x 6” label features a strong acrylic adhesive for reliable attachment to a variety of surfaces, and the 25-pack format makes it easy to keep your facility properly marked and safe. Use these labels to eliminate the uncertainty of unmarked drums and ensure everyone on site is aware of the hazardous materials within.
