

3D Projection™ Safety Sign: Eye Wash, 6" x 5" Panel - PSP601

Product Images

Short Description

- Projects from the wall at a 45° angle for high visibility from the front and both sides
- Universal emergency shower icon and large green arrow for clear, instant recognition
- Helps employees quickly locate emergency eye wash stations in urgent situations
- Durable, over-laminated plastic construction for long-lasting performance
- Easy to install with pre-drilled flanged edges for screws or adhesive tape (hardware not included)
- Compact 6" x 5" panel fits neatly above wash stations

Description

Make emergency response faster and safer with the 3D Projection™ Safety Sign: Eye Wash. This highly visible sign projects from the wall at a 45° angle, ensuring it can be seen from multiple directions in busy workplace areas. The universal graphic of a face above an eye wash fountain, paired with a directional arrow, makes it easy for all employees to quickly identify and locate eye wash stations-even in high-stress situations or language-diverse environments. Built from durable, over-laminated plastic, this sign is designed for longevity and easy installation, making it a smart add-on for any facility prioritizing safety and compliance.
